Engine Diagnose „HS Light Hardware“ as Xchange - component

The future long-term ability of Service-diagnose at EMR 1- and MVS-control units will be secured by a new XChange part only.

The predecessor hardware DECOM will apply in all other service cases.

Important: Verify if a valid SERDIA 2010-software licence to the old HS Light serial number is registered. Licences will not be transfered automatically to the Xchange part! In those cases please contact Mr. Helmut Rückoldt (rueckoldt.h@deutz.com).

HS Light XChange Products

Denotation	p/n Xchange	Scope of supply	Cross Reference	
			p/n Genuine	Scope of supply
(XC-)Interface	0305 2080	Competence level 2 (w/o USB-cable /CD)	0293 7692	Competence level 2 (with USB-cable /CD)
(XC-)Interface	0305 2081	Competence level 3 (w/o USB-cable /CD)	0293 7693	Competence level 3 (with USB-cable /CD)

Core parts

Competence level	Generation 1	Generation 2	actual Generation
Level 2	101 942	102 932	0293 7695
Level 3	101 943	102 933	0293 7696

Reminder:

Due to the end of production of HS Light hardware the functionality within SERDIA 2010 software runs out by 2015-02-01! Please order the replacement hardware DECOM in time in order to ensure the serviceability to your customers. All informations are described in MN 10189-11/13 in detail.
